PHARMACIST TRAVEL
HEALTH CONFERENCE

1ST PHARMACIST TRAVEL .MEDICINE CONFERENCE 2018

4TH NOV

Expert Travel Medicine Conference.

A day for you to exchange and gain valuble knowledge from experts within travel medicine.

Travel Medicine Cup competition

3RD NOV

Digital Travel health & Travel Medicine Cup 2018.

INTRODUCTION FROM THE CHAIR.

With more than a thousand pharmacist-led travel vaccinations clinics in the UK, more and more pharmacists are involved in providing travel health advice or related clinical services. There is a vast diversity in the levels of practice, which has motivated a group of experienced pharmacist travel medicine clinicians to form a forum/group to discuss and formulate current best practice in travel health and medicine in the context of a pharmacy setting.

This conference aims to be a platform for pharmacist travel health clinicians to share best practices and equip experts in the travel health field with the knowledge and experience to deal with complex clinical cases and run a busy travel clinic operation.

In this series of lectures, you will find experts in Travel Medicine and Health across the different practice sectors: community, hospital and specialist centres.

Digital Travel Health & How to set up your Travel Clinic Day

In the morning of Day One, we will form a tutorial-style conference entitled 'Digital Travel Health and How To Set Up Your Travel Clinic'. This half-day workshop aims to provide an insight into technological innovations in the administrative and business side of the Travel Health sector in an informal parliamentary-style discussion and workshop group, led by frontline leaders in the movement of digitalising Travel Health technology in pharmacy settings. The anticipated outcome of this workshop is to formularise a well-organised and structured clinic which complies with regulatory requirements and standards. We will also cross-reference with other competency standards on travel clinic premises and with the clinicians from the medical practitioners and nursing professions.

Travel Medicine Cup 2018

In the afternoon of Day One, for the first time, we will hold the Travel Medicine Cup 2018 tournament for all health care professionals. This is a University Challenge-style competition which aims to provide a platform where the most knowledgeable travel health practitioners compete to win the title of 'Best Travel Vaccination in the UK on Clinical Knowledge'. We believe such healthy competition will raise awareness regarding best practice in travel medicine among health care professionals as a medical speciality and by extension, among the general public who are in need of travel health advice prior to travel. It will be a fun and innovative experience for travel health practitioners to demonstrate their knowledge and clinical experiences.

Expert Travel Medicine Conference 2018

Day Two marks the most important part of the conference, the Expert Travel Medicine Conference Day, when travel medicine and health experts from across the UK and overseas will share their years of clinical practice experience to improve the knowledge and practice of pharmacist travel health practitioners. Day Two will also mark the commencement of a long-term project to formulate a comprehensive travel vaccinations clinical competencies framework for pharmacists and set the standard for UK pharmacy consultation and clinical areas.

After lunch, we will host a brief but honourable commencement ceremony for the establishment of the Hong Kong Society for Travel Medicine (HKSTM). The HKSTM aims to raise awareness amongst health care professionals and the public on the importance of accurate travel health advice, risk assessments and chemoprophylaxis. We are privileged to be part of the development of travel medicine and global health, and the provision of comprehensive travel vaccinations services, in Hong Kong and the Far East.

It is the organising committee's hope that through the active sharing of the best practice of experts, we will create the gold standard for clinical practice amongst all pharmacy travel vaccinations and immunisations clinics in the UK and around the world.

Alex Leung
FRSPH MRPharmS DipTravelMed (Glasgow) MFTM RCPS (Glasg) MRPharmS, PgCert Independent Prescribing (London)
Conference Chair
On behalf of Pharmacist Travel Medicine & Health Conference Organising Committee

UNDERSTANDING HOW TO DITITALISE YOU BUSINESS.

DAY1 :
DIGITAL TRAVEL HEALTH AND TRAVEL MEDICINE CUP 2018

www.travelhealthconference.com

09:00 AM — **Mike Bereza** (Voyager Medical).
Introduction to the day, a summary of 2018 in respects to travel and digital health.

09:30 AM — **Saam Ali** (Pharmacy Mentor).
How to digitise your pharmacy and promote your travel clinic.

10:00 AM — **Ahmed Sadiqzai** (GetJab.co.uk).
How to use free online tools and paid for websites to drive traffic to your pharmacy for NHS and Private services.

10:30 AM — **Discussion and peer workshop.**

11:00 AM — **Rajinder Bains** (Replacing Oliver Staunton from PharmData.co.uk).
How to make the most of freely available digital tools.

11:30 AM — **Mitesh Shah** (MyLocumChoice.co.uk).
How to use free online tools and paid for websites to drive traffic to your pharmacy for NHS and Private services.

12:00 AM — **Alex Leung & Sean Phoon.**
Common Medical Emergencies in a Travel Vaccinations Clinic: CPR and Anaphylaxis updates.

12:30 AM — **Questions and Answer panel, with the Digital Pharmacist Board.**

01:00 PM — **Lunch**

02:00 PM — **Travel Medicine Cup.**
A travel health knowledge based competition. Winner will be awarded.

Travel Medicine Cup

www.travelmedicinecup.com

A DAY WHERE WE ALL CAN CONNECT & EXCHANGE VALUEBLE KNOWLEDGE.

DAY2 :
EXPERT TRAVEL MEDICINE CONFERENCE DAY 2018

www.travelmedicineconference.com

09:00 AM — **Registration.**

09:25 AM — **Alex Leung.**
Welcome from the Chair & an Introduction to the day and expert speakers

09:30 AM — **Group Captain Green.**
Diagnostic test used in Travel Clinics.

09:55 AM — **Professor David Ross.**
Preparing volunteers and to volunteer, advance risk assessment skills update.

10:20 AM — **Alex Leung.**
Infant, young children and panic adult vaccination positioning techniques.

10:45 AM — **Break**

10:55 AM — **Meet the experts - Workshop.**

11:15 AM — **Mike Bereza.**
How to use our new iPMR digital platform to facilitate advanced level pharmacy travel vaccinations clinics.

11:40 AM — **Cheryl Shaw.**
Travel Health Challenges in a Global Health Company.

12:00 PM — **Break**

12:10 AM — **Professor Derek Evans.**
Covering key PHE August 2018 updates to rabies pre-exposure prophylaxis.

12:35 AM — **Dr. Susanna Roughton.**
Advancing your training in Travel Medicine: The Membership Diploma and the Foundation course by the Royal College of Physicians and Surgeons of Glasgow (RCPSG).

12:45 PM — **Meet the experts - Workshop.**

01:05 PM — **Lunch.**
Provided by us.

01:55 PM — **Group Captian Green, Alex Leung and Tommy Tang.**
Commencement Ceremony of Hong Kong society for Travel Medicine.

02:10 PM — **Dr. Tommy Tang.**
Post Travel/Return Traveller: Tropical Diseases and its sign, symptoms and diagonistic.

02:35 PM — **Dr. George Kassianos.**
National Flu Immunisation priorities: Over 65, why adjuvanted trivalent flu vaccine (aTIV)?
a perspective from the National Immunisation Clinical Lead.

03:05 PM — **Break**

03:15 PM — **Emley Pine.**
At risk travellers: Pregnancy and breast feeding.

03:40 PM — **Professor Larry Goodyear.**
Bite Prevention Update: insects repellents.
a prespective from an expert in mosquito bite prevnention

04:05 PM — **Meet the experts - Workshop.**

04:25 PM — **Question and Answer Session and closing.**

INTRODUCTION FROM THE CO-CHAIRS.

For the past eight years, I have run an independent travel clinic in a pharmacy in North London. It has been not only financially fruitful but professionally rewarding. For too long, there has been little to no gathering where like-minded pharmacist travel health practitioners can meet and share their clinical and business experience in setting up a successful travel vaccinations clinic.

As such, Alex, Derek and I would like to host a Digital Travel Health Day and Workshop focused on setting up a successful travel clinic. This parliamentary-style workshop is intended for pharmacists looking to set up a travel vaccinations clinic or those pharmacists already running a travel clinic who would like to make it safer, more efficient and more profitable.

The day will present exciting speakers, including Saam Ali (Pharmacy Mentor) and Oliver Staunton (PharmData), and will cover the novel ways in which pharmacists can use digital tools to promote their business and make their new private venture a success.

Let's go and get on to our digital travel health journey!

Mike Bereza MRPharmS PTLLS Qualified Instructor, Independent Prescriber (London)
Chair for Digital Travel Health Day and Conference Co-Chair
Pharmacist Travel Medicine and Health Conference Organising Committee

In the last 15 years the changing role of the pharmacist has accelerated rapidly to place the profession and practitioners in a situation where the movement has been away from the generalist role to a series of specialisms. When pharmacists were first allowed to administer the flu vaccine then it was a matter of time that those skills were to be utilised in provision of other vaccinations, and naturally travel health in pharmacies evolved.

Today there are over thousand pharmacist led travel health services providing a wide spectrum of services from the simple supply of anti-malarials through to full time specialists working in private clinics. At the same time the traditional suppliers of the travel health services, the primary healthcare providers have been reducing the supply of services in line with national health service policies. These suppliers having previous experience of training and educating in travel health defined the standards that all professionals are judged.

Along with the rapid expansion of pharmacy-led travel health services is the need to have clinical standards, which are the consistent for all professions providing the same service. Currently pharmacists remain outside the scope of CQC inspection standards for clinical services, however with the forthcoming changes in healthcare professional regulations then this will change. There is an increasing need for a set of defined clinical standards and competencies for pharmacists in the supply of travel health services. Ultimately these will support and enhance pharmacy by gaining acceptance from other professions and improving the safety to patients.

As a profession we currently do not have any mandated specialist standards in the provision of travel health services. Therefore the reliance is upon the individual to assess and demonstrate their professional competence through attendance at Conferences such as these.

Derek Evans, FRPharmS, FRGS, MFTM RCPS (Glasg), Dip Travel Med (Glasgow), MISTM, MPSI, Independent Prescriber
Adjunct Clinical Professor, School of Pharmacy, Keck Graduate Institute, Los Angeles.
Conference Co-Chair
Pharmacist Travel Medicine & Health Conference Organising Committee

DAY 2 :
EXPERT TRAVEL MEDICINE CONFERENCE DAY 2018
SPEAKERS.

FIRST COHORT:
TOPICS AND SPEAKERS

Diagnostic test used in Travel Clinics - Group Captain Andrew D Green

Preparing volunteers and to volunteer advance risk assessment skills update. - Dr. David Ross

Infan, young children and panic adult vaccination positioning techniques. - Alex Leung

CONFERENCE PROCEEDINGS:

The conference will begin with an address from Group Captain Green, the immediate past dean of the Royal College of Physicians and Surgeons of Glasgow Faculty of Travel Medicine, defence consultant adviser on infectious disease and one of the Queen's personal physicians. Group Captain Green will present the diagnostics test used by travel clinics.

Group Captain Green will be followed by Professor David Ross, Director of Education of the Royal College of Physicians and Surgeons of Glasgow Faculty of Travel Medicine Education board. His presentation will be on preparing volunteers and an advance risk assessment skills update on the psychological aspects of advanced travel clinics.

Then Alex Leung, Head of Travel Medicine, a specialist independent prescriber at five General Practices and pharmacies, and a board member of the Royal College of Physicians and Surgeons of Glasgow (RCPSG) Faculty of Travel Medicine Education Board (FTMEB), will present the methods on how to hold a child during vaccinations in the context of Panic Adult and Child and Moving Infant. I will use my own real-life experiences in this area to demonstrate how to deal with them. This will be useful for pharmacists who have to deal with the paediatric level of vaccinations.

HONORARY CONFERENCE CHAIR:

Group Captain Andrew D Green,
QHP MB BS DTM & H FFTM RCPS(Glas)

Immediate past Dean of the Faculty of Travel Medicine, Royal College of Physician and Surgeon of Glasgow and Defence Consultant Adviser in Communicable Disease.

Gp Capt Andy Green trained at St George's Hospital Medical School, London and joined the Royal Air Force in 1983 after house jobs. He trained as a specialist in Clinical Microbiology, and was appointed Consultant Microbiologist in 1991.

He is currently Defence Consultant Adviser in Communicable Diseases, and advises the Surgeon General on all aspects of infectious diseases and their control, including biological warfare. Gp Capt Green sits on a number of national and international committees, both military and civilian. He has published over 100 scientific articles, and has research interests in Travel Medicine and disease transmission on-board aircraft. In 2009, he was appointed Director of Infection Prevention and Control (IPC) with a remit to lead the development of IPC practice across the Defence Medical Services, and moved to his current position at the Royal Centre for Defence Medicine in Birmingham.

During the summer of 2014 he became one of the Military leads advising on clinical aspects of the Ebola Virus Disease (EVD) response of the United Kingdom.
He continues to act as a specialist adviser to the Department of Health and the World Health Organization on transportation of patients with highly transmissible infectious diseases. He was appointed as Dean of the Faculty of Travel Medicine in October 2015.

HONORARY CONFERENCE VICE CHAIR:

Professor David Ross,
QHP MSC MBBS MRCGP FRCPCH FFPHM FFTM

David Ross was commissioned into the Royal Army Medical Corps in 1983 and graduated in medicine from St Bartholomew's Hospital, London in 1986. In 2012 he was appointed the Parkes Professor of Preventive Medicine and in 2014 an Honorary Queen's Physician.

He has been associated with MASTA, a travel medicine provider, circa 2005 and from 2012 has been their Consultant Medical Advisor. Recent travel medicine research interests have included malaria prevention and tuberculosis screening. David is also Deputy Chief Examiner of the Diploma in Medical Care of Catastrophes at the Society of Apothecaries and an examiner at the UK Faculty of Public Health. He is married with two children, Verity & Cameron who occupy a large amount of his time outside work. Other interests in addition to travel include good food and wine, and sport (sadly mainly in an armchair capacity now!)

CONFERENCE CHAIR:

Alex Leung,
FRSPH MRPharmS DipTravelMed (Glasgow) MFTM RCPS (Glasg) MRPharmS, PgCert Independent Prescribing (London)

Alex is the Chair of the first Pharmacists Travel Medicine Conference 2018 with the aim of enhancing the clinical expertise of travel clinic pharmacists. He is a keen advocate for training pharmacists to provide sound, evidence-based Travel Health advice while working to a comprehensive risk assessment process.

Alex believes the sharing of practical experiences of frontline clinicians and Travel Medicine experts will inspire fellow pharmacists to progress to become advanced Travel Health/Travel Medicine clinicians. This is the purpose of the Travel Medicine conference.

Alex is a Fellow of the Royal Society for Public Health and is interested in global health issues within the context of Travel Medicine. Alex is also a Specialist Pharmacist Independent Prescriber and has been serving as a frontline Travel Health clinician for more than seven years. He is the Head of Travel Medicine and Allergy Services at five GP surgeries and pharmacies and the Chief Pharmacist for Shell UK, working with the Shell Occupational Health team in improving clinical services.

Alongside his daily duties, Alex has been working on multiple projects with the goal of raising awareness regarding the i mportance of Travel Medicine services and its educational need in both the UK and Hong Kong.

Alex is a board member of the Royal College of Physicians and Surgeons of Glasgow (RCPSG) Faculty of Travel Medicine Education Board (FTMEB) and is tasked, along with fellow board members, to work with the Royal Pharmaceutical Society (RPS) to set the competencies framework of pharmacists' travel health clinicians and the clinical standards of pharmacy travel clinics in the UK.

Alex is the president (Overseas Affairs & Global Engagement) and co-founder of the Hong Kong Society of Travel Medicine (HKSTM), which aims to raise the public's awareness of the importance of Travel Health for Hong Kong and China travellers. Alex is an advocate for the empowerment of Hong Kong (HK) pharmacist professionals to become trained vaccinators, providing influenza vaccinations utilising skilled healthcare professionals.

Alex is also the education director of a PGD-accredited training course on travel vaccinations, seasonal influenza and injection techniques. To date, he has educated more than 1,400 UK pharmacists in this field. He is a qualified First Aid & Resuscitation Training Instructor, including First Aid At Work (FAAW) and an AED and Paediatric/Childcare First Aid Instructor, providing paediatric and adult CPR anaphylaxis courses.

SECOND COHORT:
TOPICS AND SPEAKERS

How to use our new iPMR digital platform to facilitate advanced level pharmacy travel vaccinations clinics. - Mike Bereza

Travel Health Challenges in a Global Health Company - Cheryl Shaw

Covering key PHE August 2018 updates to rabies pre-exposure prophylaxis. - Derek Evans

Advancing your training in Travel Medicine: The Membership Diploma and the Foundation course by the Royal College of Physicians and Surgeons of Glasgow (RCPSG). - Dr. Susanna Roughton

CONFERENCE PROCEEDINGS:

After the morning break, Mr Mike Bereza, Managing Director of Voyager Medical and an experienced pharmacist independent prescriber and owner of Douglas Pharmacy, will present how to use the new iPMR digital platform to facilitate advanced level pharmacy travel vaccinations clinics.

Ms Cheryl Shaw, occupational health manager and head nurse from Shell International Limited, will present psychological aspects support for business travellers from a busy, occupational health clinic prospective.

Mr Derek Evans, a clinical adjunct professor of the GI School of Pharmacy, experienced pharmacist independent prescriber and an experienced travel health clinician, will cover key Public Health England updates to rabies pre-exposure prophylaxis.

Dr Susan Roughton, course manager of the membership diploma and foundation in Travel Medicine for the Royal College of Physicians and Surgeons of Glasgow, will present the options for advancing clinical training through the Faculty of Travel Medicine courses.

CONFERENCE CO CHAIR:

Wojtek (Mike) Bereza,
MRPharm Independent Prescriber

Mike started the first autonomous Community Pharmacy Travel Clinic in 2007 and now works in his London based Douglas Pharmacy. Having over a decade of experience running a successful travel clinic he created the hubnet.io which is a network of digitally enabled healthcare professionals working to pioneer new pharmacy services.

SPEAKER:

Cheryl Shaw,
Occupational Health Manager at Shell International Ltd

Cheryl graduated as a nurse from Mid Herts School of nursing in 1985 and the work for Hertfordshire Country Council until she took a position as Southern Lead Nurse and UK Trainer for Superdrug in 2007. Cheryl now works an Occupational Health Manager at Shell International.

CONFERENCE CO CHAIR:

Professor Derek Evans,
FRPharmS, Ind Prescriber, FRGS, MFTM RCPS(Glasg)

Derek Evans is a pharmacist who owns a private travel health consultancy. He has worked in community pharmacy in many specialist roles and and management positions. He is currently the chair elect of the professional pharmacy group of the International Society of Travel Medicine and the British Global Travel Health Association.

He is a Fellow of the Royal Geographical Society and the first Pharmacist to be awarded Fellowship of the Royal Pharmaceutical Society for travel medicine. In addition he has a Diploma and Membership in Travel Medicine from the Royal College of Physicians and Surgeons. Recently Derek has been made Clinical adjunct Professor at KGI School of Pharmacy, Los Angeles in Travel Health.

Derek has written and been published in several international journals and has presented internationally. His principal areas of interest are post-rabies treatment in primary care; water purification techniques and consultation models in travel health assessments.

SPEAKERS:

Dr Susanna Roughton,
MB BS, MSc, MRCGP, FFPH, MFTM

After graduating from Guys Hospital Medical School as an Army Cadet in 1989, Susanna went on to train as a GP in the Army and continued in General Practice becoming a GP principal and trainer until she changed her career path to Public Health in 2009. Having successfully completed Public Health training, Susanna undertook the Diploma in Travel Medicine in 2015 and won the Cameron Lockie prize. She developed a keen interest in Travel Medicine and ran the Defence Medical Services Travel Medicine courses until her retirement from the Army in July 2018, having passed the Faculty Membership examination in December 2017. She now works as the Faculty of Travel Medicine Course Manager for the Royal College of Surgeons and Physicians Glasgow and retains a keen interest in teaching and learning.

When not working from home for the Faculty, Susanna runs a smallholding in mid-Wales where she has an extensive apple orchard, sheep, chickens and several other pets.

THIRD COHORT:
TOPICS AND SPEAKERS

Post Travel/Return Traveller: Tropical Diseases and its sign, symptoms and diagonistic.. - Dr. Tommy Tang

National Flu Immunisation priorities: Over 65, why adjuvanted trivalent flu vaccine (aTIV)? A perspective from the National Immunisation Clinical Lead.. - Dr. George Kassianos.

At risk travellers: Pregnancy and breast feeding. - Emley Pine

Bite Prevention Update: insects repellents. A perspective from an Expert in mosquito bite prevention. - Professor Larry Goodyear

CONFERENCE PROCEEDINGS:

After lunch, Group Captain Green, Honorary President of the Hong Kong Society of Travel Medicine (HKSTM) together with Dr Tommy Tang, President of HKSTM (Hong Kong Affairs) and Alex Leung, President of HKSTM (Overseas Affairs & Global Engagements) will host a brief commencement ceremony for the Hong Kong Society of Travel Medicine, marking its first page of history in raising the awareness of the health care professions and the public on travel medicine and health-related matters.

Dr Tommy Tang, an associate consultant in Infectious diseases, will present the post-travel/return traveller and tropical diseases and their signs, symptoms and diagnoses. It will be impactful if pharmacists can understand more of the post-travel diagnostics tests and how they correlate with advice given to patients pre-travel.

After Dr Tang, Dr George Kassianos, the President of British Global and Travel Health Association (BGTHA), an experienced GP in Travel Health and the National Immunisation Clinical Lead of RCPG, will present 'National Flu Immunisation priorities: Over 65. Why adjuvanted trivalent flu vaccine (aTIV)? A perspective from the National Immunisation Clinical Lead.' It will clear up a lot of the mystery surrounding PHE advice aTIV for the over-65s and answer many pharmacists' question on whether it is suitable to use the Quadrivalent influenza vaccine (QIV) on an elderly population.

After the final break, Ms Emley Pine, a travel health specialist nurse and clinical lead in education and training for the Nomad travel clinic, will present 'At-Risk Travellers: Pregnancy and Breastfeeding'. Emley has vast experience in dealing with at-risk patients travelling to high-risk countries and what, as a travel health practitioner, the rationales and parameters are in aiding the formulation of advice or decisions regarding these special travellers.

Finally, Professor Larry Goodyer, professor of Pharmacy Practice at the University of De Montfort School of Pharmacy, the Chairperson of British Global and Travel Health Association (BGTHA), will give his expert opinion to pharmacists on how to support patients to find suitable insect repellents, especially for infants and patients with skin sensitivities.

THE COMMENCMENT CEREMONY OF THE HONG KONG SOCIETY OF TRAVELMEDICINE

HKSTM
香港旅遊醫學學會

Hong Kong Society of Travel Medicine

The aim of the Hong Kong Society of Travel Medicine (HKSTM) is to guide the profession in all aspects relating to the practice of travel medicine and health, to liaise with the travel industry, consult with relevant authorities, advise the public and encourage national and international collaboration within the field.

The goals of the Society are:

1. To **promote** excellence in the practice of Travel Medicine and Global Health.
2. To act as a local and international academic society for Travel Medicine and Global Health.
3. To serve as an **advisory body** on Travel Medicine to the Hong Kong Department of Health.
4. To promote, facilitate and accredit the **education** of health care professionals in the practise of Travel Medicine and Global Health.
5. To prepare technical **guidelines** on Travel Medicine.
6. To facilitate local and international **collaboration** in the field of Travel Medicine and Global Health.
7. To encourage **excellence** in appropriate research and professional publications in Travel Medicine and Global Health.

Executive Board of Hong Kong Society of Travel Medicine

Dr. Tommy Tang, MBBS MRCP MPH FHKCP FHKAM DipTravelMed (Glasgow) MFTM RCPSG(Glasgow), Doctor
President (Hong Kong Affairs)

Mr. Alex Leung, FRSPH MRPharmS MPharm DipTravelMed (Glasgow) MFTM RCPS (Glasg) PgCert Independent Prescribing (London), Pharmacist
President (Overseas Affairs & Global Engagement)

Ms. Bonnie Ho, MPharm, Pharmacist
Secretary & Finance

Dr. Joyce Lee, MBBS MPH, Doctor
Mr Dennis Fong, FRSPH MRPharmS, Pharmacist
Dr. WM Ting, MBBS, MRCP FHKCP FHKAM, Doctor

Honorary President of Hong Kong Society of Travel Medicine
Group Captain Andy Green, QHP MBBS DTM & H FFTM RCPS(Glas)

Honorary Vice President of Hong Kong Society of Travel Medicine
Professor David Ross, QHP MSC MBBS MRCGP FRCPCH FFPHM FFTM

SPEAKER:

Dr. Tommy Tang,
MBBS MRCP MPH FHKCP FHKAM MFTM RCPS(Glasgow)

Tang graduated in the University of Hong Kong in 2004, and attained his membership in the Royal College of Physicians in 2007. Interested in travel medicine and global health, he became the Member of the Faculty of Travel Medicine, Royal College of Physicians and S urgeons of Glasgow in 2017.

Currently he is working as the associated consultant of the Division of Infectious Diseases, Queen Elizabeth Hospital, Hong Kong. He has various peer-review publications including the Emerging Infectious Diseases, the Clinical Infectious Diseases, and the New England Journal of Medicine.

SPEAKER:

Dr. George Kassianos,
MD (Hons), FRCGP, FESC, FBGTHA, FFTM RCPS(Glasg), FBHS, FHEA, FAcadMEd, DRCOG, LRCP (Edin.), LRCS (Edin.), LRCP&S (Glas.), DMedAcup., DMedHypn., DFP

Dr George Kassianos is the founder member, President, Fellow & spokesperson for the British Global & Travel Health Association (BGTHA), Immunisation Lead for the Royal College of General Practitioners, member of the Health Protection Agency's Advisory Committee on Malaria Prevention in Travellers, the HPA's UK Advisory Panel on Blood-borne Viruses in Healthcare Workers, Member of the Expert Panel of the British Polio Fellowship, and a number of other UK committees as well as member of the Education Committee of the International Society of Travel Medicine (ISTM).

Fellow of the Faculty of Travel Medicine Royal College of Physicians and Surgeons Glasgow, Editorial board member of the journal "Vaccines in Practice", "British Journal of Cariology", "Primary Care Cardiovascular Journal", "International Journal of Clinical Practice".
GP Editorial Consultant for "Guidelines in Practice"
Passed Medical Editor "Audit In Practice", "Managing Heart Failure in General Practice", "Care of the Elderly"
Editor-in-Chief of the international journal "Drugs In Context" www.drugsincontext.com
I am currently preparing the 5th edition of my book "Immunisations, Childhood & Travel Health", lecture widely in the UK and abroad.
My research in travel medicine has been in hepatitis B surface antigen.

Lecturer in cardiovascular diseases - Fellow of the European Society of Cardiology, Member of the British Hypertension Society, British Society for Heart Failure, British Cardiovascular Society
Fellow of the Academy of Medical Educators

SPEAKER:

Emley Pine,
RN MSc DTN DTM MFTM RCPS(Glasg)

After starting her nursing career in Accident & Emergency, Emley completed the Diploma in Tropical Nursing at LSHTM and then started her career in Travel Health with a job at Nomad in 2006. It was a part-time position that fitted around her studies for her Masters in Medical Anthropology and was a great way of using her new knowledge of the tropics while based in London. After having a break to travel to Mauritania, Hong Kong and India, and to have her daughter, Emley continued working for Nomad and InterHealth - a travel clinic specialising in aid and humanitarian workers.

Emley undertook the Diploma in Travel Medicine at the Royal College of Physicians and Surgeons Glasgow in 2012, she won the Cameron Lockie prize and then took the further examination to become a Member of their Faculty of Travel Medicine. She has an ongoing relationship with the Faculty as a speaker and examiner. In addition to her current role at Nomad leading their nurse training, she also independently runs Travel Health introductory and update courses for nurses, doctors and pharmacists.

SPEAKER:

Professor Larry Goodyear,
MPharm MRPharmS Phd FFTMRCPS(Glasg) FRGS FISTM

Larry Goodyer is Professor of Pharmacy Practice at the School of Pharmacy at De Montfort University UK.
He worked as a clinical pharmacist through much of the 1980s and early 90s and until 2003 was Head of the Pharmacy Practice group at King's College London.

His principal interest is within the field of travel medicine, in which he is keen to promote the role of pharmacists. He has lectured and taught widely on Travel Medicine to both Health professionals and the public and has been invited to address both national and international conferences on the subject, as well as appearances on television and radio broadcasts.Related research interests include methods for bite avoidance and medical supplies for overseas travel.

More broadly in his capacity as a Professor of Pharmacy Practice he has been involved in research and teaching on a wide range of issues related to the profession of Pharmacy. These include new roles for pharmacists such as prescribing and medicines management.

TRAVEL MEDICINE CUP COMPETITION

Travel Medicine Cup

Saturday afternoon, 3rd November 2018, 2:00 p.m. to 4:30 p.m.

For first time in the UK, pharmacists and allied healthcare professionals will have the opportunity to compete for the title of 'Top Travel Medicine Clinic in Knowledge'.

This is a University Challenge-style competition aimed at increasing awareness and interest in travel health and medicine or health professionals and the general public.

Each pharmacy/health organisation can send 1 or more teams, with each team comprised of between 2 and 4 members.

The questions will surround current travel medicine and health in a Primary or Secondary Care setting (the greater emphasis will be on Primary Care). Questions will be moderated by Honorary Chair, Group Captain Green, Immediate Past Dean of the Faculty of Travel Medicine, Royal College of Physicians and Surgeons of Glasgow (RCPSG).

The winning team will be awarded the Travel Medicine Shield and the team member names engraved upon it. The winners of second place, third place and fourth place will each receive medals.

The competition will take place on 3rd November 2018 (Travel Medicine Cup) at the Refectory Hall, UCL School of Pharmacy near Russell Square Underground station (Piccadilly line).

If you want to claim your title as the best Travel Clinic (Clinical Knowledge) in the UK, please register at www.travelmedicinecup.com .

Date: 3rd November 2018

Time: 2:30 p.m. commencement (registration from 2 p.m.) and ends at 4:45 p.m.

Location: The Refectory Hall, UCL School of Pharmacy, 29-39 Brunswick Square, Bloomsbury, London, WC1N 1AX (Piccadilly line).

Number of participants: 2 team members (minimum), 4 members (maximum).

Competition Registration: www.travelmedicinecup.com

Deadline for entering the competition: 2nd November 2018 6 p.m.

Award Ceremony: 4th November 2018 (2 p.m.)

CLOSING.

Thank you for joining us for these two days. I hope you have learnt a lot from the expert speakers. Together, let's make the Pharmacist Travel Medicine Conference 2018 your one-stop resource in pursuing the best clinical and commercial practices in pharmacist-led travel health services. We hope to see you again next year at the second Pharmacist Travel Medicine Conference 2019, which will be announced on our official conference website: www.travelmedicineconference.com.
We will like to take this opportunity to thank all the expert speakers for donating their time and energy towards improving the clinical standards of pharmacist travel health practitioners.
